

What's New in QuarkXPress 2025

AI-Powered Text Editing with Quarky AI Assistant*

Say hello to Quarky! QuarkXPress subscription license holders can level up their copy game with our new Quarky AI assistant. You can generate text, get title suggestions, summarize and paraphrase text, correct grammar and even translate it instantly with Quarky.

Save Time with AI-Powered Font Pairing*

The new AI-powered Font Pairing in QuarkXPress 2025 lets you find font suggestions that look amazing together. So, you can transform your project's appearance with perfectly harmonized fonts every time by pairing the font you select with complementary fonts from the Google Fonts library.

*Available now for subscription license holders. Coming soon for perpetual.

Work Faster and Smarter with the Quick Access Bar

Get fast access to your favorite tools from the moveable Quick Access Bar. Pin and unpin frequently used items to boost your design efficiency and stay focused on creativity.

Explode Your Color Palette with the New Colors Tab

Dive into an ocean of color with the new Colors Tab. Experiment and instantly apply colors to your designs without creating a swatch first. And if you like it, add it as a swatch later!

Effortlessly Stylish! Apply Style Groups with a Single Click

Tired of manually formatting text? Style Groups let you create and save typography styles. Apply them instantly across your design, ensuring consistency and saving you precious time.

All Your Fonts at Your Fingertips Thanks to Font Collections

Stay organized by creating and saving typography styles and your favorite fonts into custom collections. Keeping them conveniently together to find fast and apply instantly.

Fix As You Go with Real-Time Spell Check

If you're tired of typos, use real-time spell check which catches mistakes as you type, so your content is always spot on.

IDML As a Package - Export IDML in a Single Payload

Now you can pass project work more seamlessly between other design apps by exporting IDMLs as packages. Quickly, share assets such as fonts and images with your design clients.

Get the Perfect Fit with Fit Text to Box and Autofit Text

Avoid overflow or unwanted spaces with Fit Text to Box and Autofit Text. Make sure your text fits like a dream without manually changing it all the time.

Marked up? We're All for Markdown

QuarkXPress is Markdown ready! When you import textfiles with markdown language, formatting elements can be applied to your style sheets with the minimum of fuss.

It's Nesting Time! Seamlessly Link and Reuse Different Projects

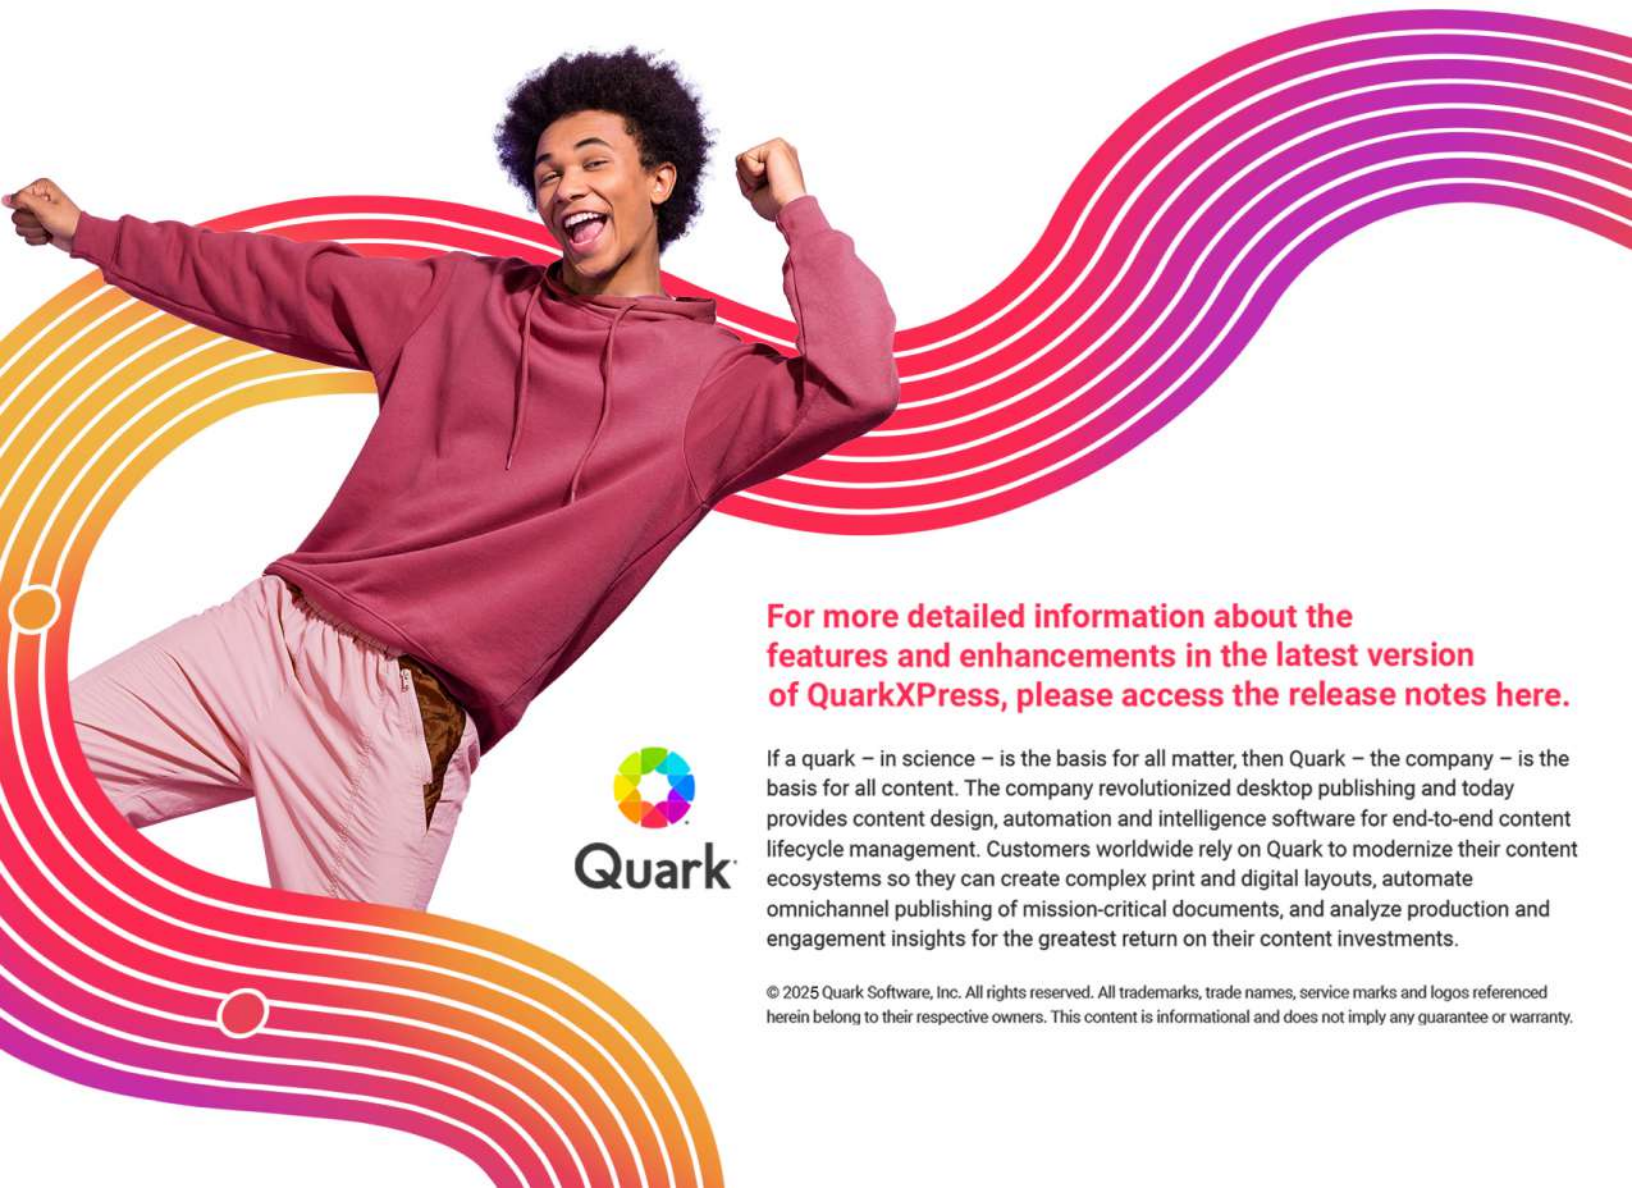

Avoid duplication time by reusing and linking different QuarkXPress projects seamlessly in your current design layout. Nested Projects makes working across projects super easy.

That's a Link! Customize and Trigger Smart Hyperlinks

Customize your hyperlinks within design layouts, change the rules on how links should be detected and how they should behave. Hyperlinks are identified and styled in real time.

Relax, We're Rounding the Corner

Now it's so easy to adjust rounded corners of rectangular boxes. Instantly customize and spice up your box effects to add some variety to your designs.

For more detailed information about the features and enhancements in the latest version of QuarkXPress, please access the release notes [here](#).

If a quark – in science – is the basis for all matter, then Quark – the company – is the basis for all content. The company revolutionized desktop publishing and today provides content design, automation and intelligence software for end-to-end content lifecycle management. Customers worldwide rely on Quark to modernize their content ecosystems so they can create complex print and digital layouts, automate omnichannel publishing of mission-critical documents, and analyze production and engagement insights for the greatest return on their content investments.
